

Envisa: End-to-End E-Commerce for the Multi-Channel Merchant

Company Overview

Envisa designs, builds and optimizes e-business solutions that significantly build profits for multi-channel merchants by enabling them to sell, market and operate more effectively.

Working in close collaboration with our client/partners, our team builds businesses and delivers tangible bottom-line results for emerging growth companies and the Fortune 100 alike.

Services

The world of Internet commerce and marketing changes constantly, creating both opportunities and challenges for today's online or multi-channel merchant. Envisa solutions have consistently driven the growth and success of multi-channel businesses by optimizing and orchestrating the right mix of technologies required for each initiative, guided by our focus on maximizing our clients' return on e-business technology and marketing investment.

We are focused on providing world-class services in four key areas critical to the success of our clients:

E-Commerce | E-Marketing | Business Intelligence | Business Integration

Clients

Some of the leading online and multi-channel merchants that rely on Envisa to deliver business results are:
