

Envisa

End to End E-Commerce For the Multi-Channel Merchant

Company

Envisa is a technology implementation and business consulting firm that brings the capability and experience of the world's premier consultancies to both rising stars and market leaders in the Retail industry. Our team is committed to delivering unparalleled quality, value and client service.

Services

Through a unique blend of business and technology expertise, Envisa delivers solutions that increase revenue and improve efficiency. By listening carefully to our clients, Envisa takes the time to understand key business goals and to tailor solutions to precisely meet these needs.

Leveraging an experienced staff of senior architects, software engineers, visual designers, project managers and business analysts, Envisa provides premium consulting services in the following areas:

User Experience | Technology Strategy | Business Intelligence | Technology Delivery | Process Design

Clients

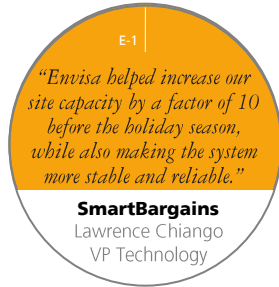

An exceptional team and an unwavering dedication to client satisfaction are the cornerstones of our organization. Envisa has supplied technology leadership, provided resource stability, and fostered marketplace success for our clients throughout periods of dramatic change and volatility in both the technology industry and the business community at large. Some of the leading retailers that rely on Envisa for critical technology solutions include:
